

Kirklands Garden Plant List

Snowdrops

In February and March most of our plants in the sales area are dormant with little emerging above the soil, except for the snowdrops.

Every visitor that buys a ticket for our snowdrop event will receive a clump of snowdrops, free as part of their entry, usually 25 to 30 bulbs.

If you would like to buy snowdrops:

25 bulbs in the green, ready to plant	£ 5.00
50 Bulbs	£ 8.00
100 Bulbs	£15.00

We try to lift snowdrops on the day of sale to make transplanting results better, if you need 100 or more, please us know in advance.

For flowering later in the year, we have pots of other bulbs:

Erythroniums	£ 5.00
Bluebells (usually 20+ bulbs per pot)	£ 3.00
If you want lots of bluebell, please ask, we do have an almost unlimited supply!	
Trillium grandiflora	£ 8.00
Wood anemone, white native	£3.00

We have lots of other interesting wood anemones in pots, including blues, yellows, doubles – but we need to wait to see what emerges after the winter. These plants much prefer to be in the ground to being in pots.

Wild garlic: we cannot bring ourselves to sell wild garlic, even though it is attractive when in flower. We will happily dig some up and give it to you with our compliments if you really want it. It does not know when to stop, spread quickly and Gill really, really doesn't like it.

Anything else, any questions, requests....
